

## Kommunikationsfähige intelligente Ladekabel und kommunikationsfähige Wallboxen Förderungsprogramm „E-Mobilität 2025 - eRide“

Nachstehend finden Sie eine Auswahl förderbarer Ladegeräte (Ladekabel und Wallboxen). Diese entsprechen den **technischen** Kriterien des Förderungsprogramms „E-Mobilität 2025“.

### Bitte beachten Sie:

- Die angeführten Ladegeräte können nur dann gefördert werden, wenn **alle übrigen Förderungsvoraussetzungen** (siehe Homepage, Leitfaden, erläuternd dazu: „Häufig gestellte Fragen“) eingehalten werden.
- Legen Sie eine Rechnung mit der **genauen Produktbezeichnung** vor. Schon eine geringe Abweichung der Produktbezeichnung kann ein anderes Gerät bezeichnen, das möglicherweise nicht gefördert werden kann.
- Sie finden das von Ihnen erworbene Produkt nicht in der Liste? Übermitteln Sie uns in diesem Fall bitte das technische Datenblatt für Ihr Produkt gemeinsam mit der Rechnung (Produktbezeichnung auf der Rechnung muss mit der Produktbezeichnung im Datenblatt übereinstimmen).
- Bei **Gemeinschaftsanlagen im Mehrparteienhaus** muss bereits in der ersten Ausbaustufe (auch wenn zu diesem Zeitpunkt nur eine Ladestation errichtet wird) eine Masterwallbox errichtet bzw. ein Backend-System zum Lastmanagement eingerichtet werden. Die bloße Nachrüstbarkeit ist nicht ausreichend. In der nachstehenden Liste finden Sie keine Information über die Eigenschaften als Master oder Slave. Nähere Informationen über die technischen Details erhalten Sie beim Hersteller des gewünschten Produktes.

### Nur für Betriebe:

- **DC-Ladestationen** finden Sie nicht in der Liste. Sie werden nicht veröffentlicht, sondern im Einzelfall geprüft.
